RE: Application No. 09/757,322
Decision on Petition Mailed on Dec 22, 2008 ("Petition Decision")
Request for Reconsideration of Petition Decision

Dear Ms. Brown,

The examiner, Mr. Jonathan Ouellette, faxed me last week a copy of the above referenced Petition Decision as I never received the copy which the Office of Petitions apparently mailed to my prior address (14245 NW Melody Lane) and copied the same to some unknown address in Canada which we never submitted!

The Office of Petitions Dismissed our application without Prejudice because "the instant petition is not signed by all the inventors.." or "..the assignee..". I am a confused because the Amendment was signed by myself both on behalf of the Assignee and the first inventor. As you may be aware, in October 2008, I submitted Statement under CFR 3.73(b) to establish that Northwest Software, Inc. is the assignee of the entire right, title and interest ("Assignee"). I also submitted the fee along with the Petition for Revival under CFR 1.137(a). Our October 22, 2008 amendment was signed both by the Assignee and myself as the first inventor. I have attached a computer copy of the October 2008 transmittal letter which was signed by the Assignee and included with the Amendment.

Per your phone message from last week, I am submitting this written request for reconsideration of the above referenced Petition Decision. I am also requesting that the address be changed as requested in Assignee's attached letter from October 2008. Further, please remove the Canada address where a copy of the Petition Decision was mailed as it appears to be an administrative or clerical error at the Office of Petitions.

In order to prevent any further undue delay, I would appreciate if you could also forward a copy of any written communication to the two addresses included in Assignee's 2008 letter, which I am also including here for convenience:
